PROFESSIONAL SUMMARY

Motivated IT student pursuing a Higher Diploma in Information Technology at ICST University Park, with practical skills in Power BI, Advanced Excel, Python and database systems. Experienced volunteer instructor who explains technical topics clearly to students and community groups. Training in emergency medical care and first aid adds responsibility and calm under pressure. Seeking an entry-level role in IT, data, administration or training where I can contribute from day one and keep learning.

SKILLS

Data & Analysis

- Power BI reports and visuals
- Advanced Excel: IF logic, pivot tables
- Dashboards and charts
- Accurate data entry

Programming & Databases

- Python (loops, functions, files)
- DBMS and SQL
- ER diagrams and normalisation
- Record-keeping systems

Office & Professional

- MS Word, Excel, PowerPoint
- Training and presentation
- Clear communication
- Calm under pressure

EXPERIENCE

Volunteer Instructor **Present**

DP Education, Eravur

- Teach DBMS and Python to students through practical, hands-on sessions.
- Prepare exercises and assignments on database design, Python and Excel.
